

```
graph BT; A[core::symbolic::Symbolic Function] --> B[handle]
```

Diagram illustrating a relationship between two components:

- A box labeled `handle` (top).
- A box labeled `core::symbolic::Symbolic Function` (bottom).
- A blue arrow points from the `core::symbolic::Symbolic Function` box up to the `handle` box, indicating inheritance or a functional relationship.

`core::symbolic::Symbolic
Function`
