

handle

```
graph BT; A["physics::advection::State"] --> B["handle"]
```

A diagram showing a call from a state object to a function. At the bottom is a gray rectangular box containing the text "physics::advection::State". A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box above it. The white box contains the text "handle".

physics::advection
::State
